01 PROFILE

Experienced Senior Software Engineer with 8 years in web application development, adept at crafting impactful financial modules and migrating outdated technologies to modern solutions. Skilled in front-end development, with a deep passion for creating user-centric applications. Proficient in Angular, React, and TypeScript, with a strong command of JavaScript, HTML, and CSS. I have a proven track record of successfully developing and maintaining complex financial modules for reputable financial institutions, delivering tailored dashboards for enterprise accounts, and optimizing processes through technology migration. My dedication to staying abreast of the latest technologies and my T-shaped professional approach make me a valuable asset to any software engineering team.

02 EMPLOYMENT HISTORY

12/2020 — Present

Senior Software Engineer at Banco Pan
São Paulo

[2021 - Present]: Developed and maintained an internal financial module to manage payroll loan proposals.

[2020 - 2021]: Developed and maintained a financial module to ensure the release of credit secured by one or more vehicles, allowing for a credit limit linked to vehicle inventory.

02/2020 — 12/2020

Mid-Level Software Engineer at Avanade
São Paulo

[BTG Pactual Bank Project] (Feb/2020 - Dec/2020)

Developed dashboards for statements, transactions, and consolidated balances tailored to Small and Mid-Size Enterprise accounts, utilizing React, TypeScript, and AWS.

12/2018 — 02/2020

Associate Software Engineer at Avanade

[Claro Brazil Project] (Dev/2018 - Fev/2020)

Migrated outdated and unsupported WLP (Web Logic Portal from Oracle) technology to modern solutions (Angular 7, Node, MongoDB and AWS) with the goal of optimizing the process of continuous improvement. I also participated in the unification between NET and Claro brands.

12/2016 — 12/2018

Software Engineer Intern at ProRadis
São Paulo

The maintenance, support and development of SmartRIS applications (system of management of radiological clinics integrating PACS, RIS and PEP), Image2Doc (a customized application for images, reports, and documents aimed at requesting physicians and patients) and APP I2D (Custom application with the visual identity of the partner clinic).
